

i personally believe that
Republicans are more hypocritical.
what about you?

user1

I feel Republicans are hypocritical

user2

me too. Why do you believe that?

user1

I think that they are more
hypocritical because they tend to
say one thing about issues, and
then do completely the other. for
example in regards to abortion,
they say they are so pro life, but
then when it comes to things like
school shootings, they don't do
anything to protect those lives.

user1

For instance they are pro gun laws
whereas so many incidents are
happening because there are no strict
gun control. An 18 year old cannot
buy beer but can buy guns that
is ridiculous gun control gun control

user2

yes I do agree with you

user2

I absolutely agree. However, I do
not know if they are pro-gun laws,
they are pro guns, but anti gun
control. which is what is causing a
lot of these issues. but I agree that
we need gun control!

user1

They also talk so much about being
patriotic but then do things like
storm the capitol or try to cheat to
get their way! which is not
patriotic.

user1

They talk about democracy and
they attack the same democracy

user2

exactly! I think they are part of the
reason that our democracy has
failed recently too. We cannot be a
true democracy under what they
are doing, yet they will never
realize that. They are just very self
centered and don't seem to
actually care about the good of the
country, just what is good for
themselves.

user1

absolutely they just care about
themselves

user2
